STIP AMENDMENT 00S-020 ACTION

ACTION UPDATE FROM NOTICE

This item was noticed at the March 2001 Commission meeting; the Commission requested the Action Item be placed on the consent calendar

SUMMARY

This amendment replaces \$49,655,000 of Local funds with Regional Improvement Program (RIP) funds and programs an additional \$5,152,000 in RIP funds, for a total of \$54,807,000 from Los Angeles County's Unprogrammed Share Balance for a \$68,690,000 Route 10 High Occupancy Vehicle (HOV) project in Los Angeles County. In addition, two related Traffic Operations System (TOS) projects are being programmed for a total cost of \$647,000 from the Los Angeles County's Unprogrammed Share Balance.

RECOMMENDATION

The Los Angeles County Metropolitan Transportation Authority (LACMTA) and the Department are requesting this amendment. The Department has reviewed the amendment and found it to be consistent with the Commission adopted STIP guidelines.

RESOLUTION

Resolved, that the California Transportation Commission (CTC) revise the 2000 State Transportation Improvement Program (STIP) at the end of the 30-day notice period as follows:

Revises:

May 2-3, 2001

BACKGROUND

This amendment replaces \$49,655,000 of Los Angeles County's Proposition C funds with Regional Improvement Program (RIP) funds and programs an additional \$5,152,000 in RIP funds for a \$68,690,000 Route 10 High Occupancy Vehicle (HOV) project in Los Angeles County. In addition, two related Traffic Operations System (TOS) projects are being programmed for a total cost of \$647,000 from the Los Angeles County's Unprogrammed Share Balance. This amendment will reduce the Los Angeles County's Unprogrammed Share Balance by \$55,454,000.

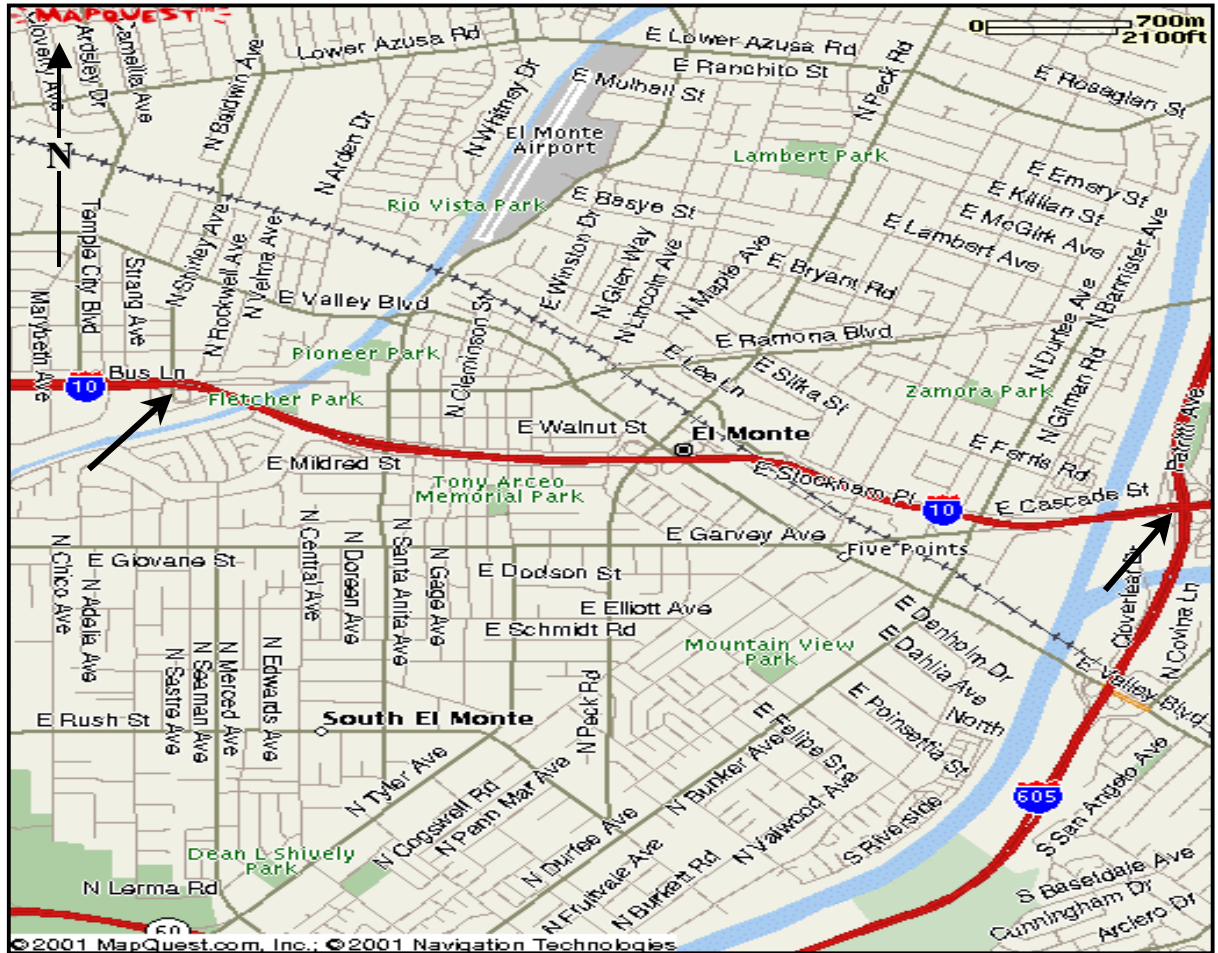

The cost increase on the HOV lane project (PPNO 0295M) is primarily due to the need to remove a substantially higher amount of Aerially Deposited Lead (ADL) than previously estimated. The increased ADL removal is required to meet the new requirements of the California Environmental Protection Agency and the Department of Toxic Substances Control that became effective September 2000.

The existing fiber optic communication lines that serve the Department's Traffic Operations in the San Gabriel Valley region are within the HOV project's excavation area. The two TOS projects being programmed will reroute the lines to keep the traffic operations system operational during the scheduled 30-month construction period of the HOV lanes. The first of the two TOS projects (PPNO 2968) will temporarily reroute the fiber optics communication lines away from the HOV lane construction area, while the second project (PPNO 2969) will install the communication lines at the ultimate location upon completion of the HOV lane project.
